The Performance Advantage Today Committee: Making Sure Our Hospitals are the Best Place to Get Care in the Twin Cities

One of the best ways we can achieve our long-term goals of fully employer paid health insurance and a secure retirement is to ensure that Allina remains a market leader in the Twin Cities.

One committee in the current round of negotiations is committed to making that happen.

Here are just a few of the issues being discussed by the Performance Advantage Today Committee:

- Staffing and scheduling issues that affect our members in all classifications**
- Adequate and Safe staffing that ensure quality patient care and patient safety**
- Hours of work and scheduling policies**
- Job training for SEIU members**
- Clarity and consistency in SEIU members job descriptions**

"As a committee, we're thinking creatively about how to improve staffing and scheduling to make sure our hospitals are the best places to work and the best places to get care in the Twin Cities."

--Wendy Sundeen, Unity
