SEIUHealthcare
United for Quality Care

**“For tomorrow belongs to the people who
prepare for it today.”
--African Proverb**

As healthcare workers, we know the world of healthcare is constantly changing.

We have two options: we can get bowled over by those changes or we can look out on the horizon and plan for or shape the future of healthcare.

In the current round of contract negotiations, the Performance Advantage Tomorrow Committee is focused on building a solid future for SEIU Healthcare Minnesota members.

Here are just a few of the issues being discussed by this committee:

- Employee Safety**
- Insourcing work for SEIU members**
- Creating a fair process for reviewing/revising position descriptions**
- Envisioning the jobs of the future**
- Clarity and consistency in SEIU members job descriptions**
