1% Belongs on a Milk Carton not in our contract!

Management has made their economic proposal. 1% in the first year. Do you think this is a legitimate proposal? Or do you think 1% belongs on a Milk Carton not in your contract?

Call Dave Gonyea of Human Resources:

And let him know what you think of this wage package.

At RMH, the Most Profitable Hospital in the State, Management Offers 1%

Our patient focused care is good not only for our patients, but also for our bottom line. Last year Mayo made a large profit, -- over \$131 million as of September 30th, 2009**. RMH made \$90 million profit on its own in 2008*; we were the most profitable hospital in the state for the second year in a row. Looking ahead we are poised to do as well for our patients in 2010.

Denise LeBarron
RMH-SCT

Denise LeBarron, surgical core tech at RMH, says, "This is just not right. Together we worked for the patients and it showed in the bottom line for the hospital. Accepting this offer would be like going backwards."

1%

Jay Tompkins
RMH-Maintenance

Jay is missing his raise. "RMH continues to be the most profitable hospital in the state. 1% is an insult. Equal pay for equal work!"

Keep 1% refrigerated.
Will spoil as soon as you read it.
