To All Amalgamated National Health Fund Members:

To support our members and their families, and help alleviate some concerns regarding health benefits during this COVID-19 pandemic, the Amalgamated National Health Fund Board of Trustees have approved the following benefits for all members and their covered dependents:

- COVID-19 testing and COVID-19 treatment during healthcare provider visits, such as office visits, urgent care and emergency room visits, will be covered at 100%

- Beginning Monday, March 30, 2020 and for the next three months, we will offer expanded telehealth visits through the Anthem Blue Cross and Blue Shield provider network covered at 100%. These visits will include:
  - Medical Visits
  - Therapist Visits
  - Psychologist Visits
  - Psychiatrist Visits

  After three months, the Trustees will evaluate the circumstances and needs of our members and determine if this benefit will be extended.

  See attached brochure with instructions to register for “LiveHealth OnLine”

During this time of hardship, the Amalgamated National Health Fund will waive all eligibility requirements for existing members for 30 days. If you were eligible during the month of March, your benefits will continue through April 30, 2020, regardless of how many hours you work. This does not apply to newly hired employees who have not yet met eligibility requirements.

In addition, for all members who were laid off or shut down due to circumstances of COVID-19, your payroll deductions for health benefit contributions will be waived for 30 days. Your employer is being informed of this waiver.

The Trustees of the Fund will be meeting on a weekly basis to determine if additional benefit changes need to be considered.

Please stay safe and healthy during these difficult times.
